

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

LIFE-THREATENING CONDITIONS CONTINUE OVER BICOL REGION AS “UWAN” CONTINUES TO MOVE WEST NORTHWESTWARD OVER THE COASTAL WATERS OF CAMARINES NORTE.

Location of Center (1:00 PM)

The center of the eye of Super Typhoon UWAN was estimated based on all available data including those from Baler and Daet Doppler Weather Radar at **135 km North Northwest of Virac, Catanduanes or 100 km Northeast of Daet, Camarines Norte (14.7°N, 123.7°E)**

Intensity

Maximum sustained winds of **185 km/h** near the center, gustiness of up to **230 km/h**, and central pressure of **935 hPa**

Present Movement

West northwestward at 30 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **900 km** from the center

TRACK AND INTENSITY FORECAST

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
5 Wind threat: Typhoon- force winds	The southern portion of Quirino (Nagtipunan), the southeastern portion of Nueva Vizcaya (Alfonso Castañeda, Dupax del Norte, Dupax del Sur), the northeastern portion of Nueva Ecija (Bongabon, Carranglan, Pantabangan), the central portion of Aurora (San Luis, Baler, Maria Aurora, Dipaculao, Dinalungan), Polillo Islands, the northern portion of Camarines Norte (Daet, Talisay, Paracale, Vinzons, Jose Panganiban, Mercedes, Basud), the northern and eastern portions of Camarines Sur (Siruma, Caramoan, Garchitorena, Tinambac, Lagonoy), and the northern portion of Catanduanes (Pandan, Bagamanoc, Panganiban, Viga, Caramoran)	-	-
Warning lead time: 12 hours Range of wind speeds: 185 km/h or higher (Beaufort 12) Potential impacts of winds: Extreme threat to life and property			
4 Wind threat: Typhoon- force winds	The southern portion of Isabela (San Agustin, Jones, Echague, Dinapigue, San Guillermo, Cordon, City of Santiago), the rest of Quirino, the rest of Nueva Vizcaya, the southern portion of Ifugao (Tinoc, Asipulo, Lamut, Hungduan, Kiangan, Lagawe, Hingyon), Benguet, the southern portion of Ilocos Sur (Sugpon, Alilem), La Union, Pangasinan, The rest of Aurora, the rest of Nueva Ecija, the northernmost portion of Zambales (Santa Cruz), the northeastern portion of Tarlac (Camiling, San Clemente, Paniqui, Gerona, Victoria, Pura, Ramos, Moncada, San Manuel, Anao, La Paz, City of Tarlac, Santa Ignacia), the easternmost portion of Pampanga (Candaba) the eastern portion of Bulacan (Doña Remedios Trinidad, San Miguel, San Ildefonso, Norzagaray, San Rafael), the northern portion of Rizal (Rodriguez), the northern and eastern portions of Quezon (Tagkawayan, Calauag, Guinayangan, Perez, Alabat, Quezon, Infanta, General Nakar, Real, Mauban), the rest of Camarines Norte, the rest of Camarines Sur, the northeastern portion of Albay (Rapu-Rapu, Bacacay, City of Tabaco, Malilipot, Malinao, Tiwi, Polangui), and the rest of Catanduanes	-	-
Warning lead time: 12 hours Range of wind speeds: 118 to 184 km/h (Beaufort 12) Potential impacts of winds: Significant to severe threat to life and property			
3 Wind threat: Storm-force winds	The southern portion of mainland Cagayan (Tuao, Enrile, Solana, Tuguegarao City, Peñablanca, Iguig, Piat, Amulung, Santo Niño, Alcala, Rizal), the rest of Isabela, the central and southern portions of Apayao (Conner, Kabugao), Abra, Kalinga, Mountain Province, the rest of Ifugao, the southern portion of Ilocos Norte (Sarrat, Piddig, Paoay, Marcos, Bacarra, Banna, Currimao, Pinili, Carasi, San Nicolas, Dingras, Solsona, Laoag City, Badoc, City of Batac, Nueva Era), the rest of Ilocos Sur, the rest of Zambales, Bataan, the rest of Tarlac, the rest of Pampanga, the rest of Bulacan, Metro Manila, Cavite, Batangas, the rest of Rizal, Laguna, the rest of Quezon, Marinduque, the rest of Albay, Sorsogon, Ticao and Burias Islands	Northern Samar	-
Warning lead time: 18 hours Range of wind speeds: 89 to 117 km/h (Beaufort 10 to 11) Potential impacts of winds: Moderate to significant threat to life and property			

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
2 Wind threat: Gale-force winds	The rest of Cagayan including Babuyan Islands, the rest of Apayao, the rest of Ilocos Norte, Occidental Mindoro including Lubang Islands, Oriental Mindoro, Romblon, and the rest of Masbate	Eastern Samar, Samar, Biliran, and the northern and central portions of Leyte (Leyte, Calubian, San Isidro, Tabango, Capoocan, Carigara, Barugo, San Miguel, Babatngon, Tacloban City, Alangalang, Tunga, Palo, Santa Fe, Pastrana, Matag-Ob, Tolosa, Mayorga, Julita, Dagami, Jaro, Villaba, La Paz, Tabontabon, Tanauan, Ormoc City, Dulag, Burauen, Kananga, Albuera, Palompon, Merida, Isabel)	-
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property		
1 Wind threat: Strong winds	Batanes and the northern portion of Palawan (Taytay, Dumarán, El Nido, Araceli, Roxas, San Vicente) including Calamian, Cuyo, and Cagayancillo Islands	The rest of Leyte, Southern Leyte, Bohol, Cebu including Bantayan and Camotes Islands, Negros Oriental, Negros Occidental, Siquijor, Guimaras, Iloilo, Capiz, Aklan, and Antique	Dinagat Islands, Surigao del Norte, the northern portion of Agusan del Norte (Tubay, Santiago, Jabonga, Kitcharao), and the northern portion of Surigao del Sur (Carrascal, Cantilan, Madrid, Carmen, Lanuza, Cortes)
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property		

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 10 issued at 11:00 AM today for the heavy rainfall outlook due to TC UWAN.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Extreme impacts** from typhoon-force winds are possible within any of the areas under Wind Signal No. 5.
- **Significant to severe impacts** from typhoon-force winds are possible within any of the areas under Wind Signal No. 4.
- **Moderate to significant impacts** from storm-force winds are possible within any of the areas under Wind Signal No. 3.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, **outside the areas under Wind Signals**, UWAN will also bring **occasionally gusty conditions** reaching strong to gale-force strength over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (09 November):** Palawan, Visayas, and Mindanao.
- **Tomorrow (10 November):** Most of Luzon and Visayas.
- **Tuesday (11 November):** Most of Luzon

Coastal Flooding

There is a **high risk of life-threatening and damaging storm surge** with peak heights **exceeding 3.0 m** within the next 48 hours over the low-lying or exposed coastal communities of Cagayan, Isabela, Ilocos Norte, Ilocos Sur, La Union, Pangasinan, Aurora, Zambales, Bataan, Pampanga, Bulacan, Metro Manila, Cavite, Batangas, Quezon, Camarines Norte, Camarines Sur, Catanduanes, Albay, Sorsogon, Northern Samar, Eastern Samar, Dinagat Islands, and Siargao and Bucas Grande Islands. **Refer to Storm Surge Warning No. 8 issued at 2:00 PM today for more details.**

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboard of Luzon, and the eastern and central seaboard of Visayas, and the eastern seaboard of Mindanao. For more details, refer to Gale Warning No. 7A issued at 11:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough, high, or very high seas over the following coastal waters:

- **Up to 14.0 m:** The seaboard of Isabela, Aurora, and Camarines Norte; the northern and eastern seaboard of Polillo Islands and Catanduanes; the northern seaboard of Camarines Sur.
- **Up to 12.0 m:** The seaboard of La Union and Pangasinan.
- **Up to 10.0 m:** The eastern seaboard of mainland Cagayan.
- **Up to 9.0 m:** The seaboard of Ilocos Norte; the eastern seaboard of Camarines Sur, Albay, Sorsogon; the northern and eastern seaboard of Northern Samar; the remaining seaboard of Catanduanes
- **Up to 8.0 m:** The seaboard of Babuyan Islands and Zambales; the remaining seaboard of mainland Cagayan.
- **Up to 7.0 m:** The seaboard of Batanes; the eastern seaboard of northern and central mainland Quezon; the remaining seaboard of Polillo Islands.
- **Up to 6.0 m:** The seaboard of Burias and Ticao Islands; the western seaboard of Lubang Islands and Bataan; the eastern seaboard of southern Quezon and Eastern Samar; the remaining seaboard of Camarines Sur, Albay, and Sorsogon, the northern and western seaboard of mainland Masbate
- **Up to 5.0 m:** The seaboard of Marinduque, Romblon, and Biliran; the eastern seaboard of Oriental Mindoro and Masbate; the northern seaboard of Leyte; the western seaboard of Samar; the remaining seaboard of Quezon and Northern Samar.
- **Up to 4.5 m:** The seaboard of Lubang Islands and Surigao del Sur; the seaboard of Batangas; the northern and western seaboard of Occidental Mindoro; the northern seaboard of Calamian Islands and Oriental Mindoro; the northern and eastern seaboard of Dinagat Islands and Siargao Islands; the eastern seaboard of Davao Oriental.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Cavite; the southern seaboard of Bataan; the western seaboard of Calamian Islands and northern mainland Palawan; the eastern seaboard of Davao Occidental.
- **Up to 3.5 m:** The seaboard of Pampanga, Bulacan, Metro Manila, Cuyo Islands, Cagayancillo Islands Antique, Siquijor, Southern Leyte, and Northern Mindanao; the eastern seaboard of northern mainland Palawan, Calamian Islands, and Leyte; the southern seaboard of Iloilo and Bohol; the western seaboard of Aklan and Guimaras; the western and southern seaboard of Negros Oriental and Negros Occidental; the remaining seaboard of Bataan, Occidental Mindoro, Oriental Mindoro, Bicol Region, Eastern Samar, Samar, and Caraga Region.
- **Up to 3.0 m:** The seaboard of Kalayaan Islands; the western seaboard of central and southern mainland Palawan and Balabac Islands; the remaining seaboard of Visayas.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Zamboanga del Norte; the western seaboard of Basilan; the remaining seaboard of Palawan.
- **Up to 2.0 m:** The seaboard of Sarangani; the western seaboard of Sulu and Tawi-Tawi; the remaining seaboard of Davao Region.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TROPICAL CYCLONE BULLETIN NR. 11

Super Typhoon UWAN (FUNG-WONG)

Issued at 2:00 PM, 09 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

Do not focus on the center track as it may still shift within the limit of the forecast confidence cone. Heavy rainfall, severe winds, and storm surge may still be experienced far from the landfall point or center track, and even in areas outside the forecast confidence cone. **Always refer to the latest hazard warnings currently in effect (e.g., Wind Signals, Heavy Rainfall Warnings, Storm Surge Warnings) and the information under “Other Hazards affecting Land Areas” of this bulletin for more details.**

- UWAN is forecast to move west northwestward over the next 24 hours. On the track forecast, the center of the eye of UWAN will continue to move generally west northwestward over the coastal waters of Camarines Norte, **pass close to Calaguas and Polillo Islands** this afternoon or evening, respectively, before **making landfall at or near its peak intensity (e.g., as a super typhoon or an upper limit typhoon) over the central portion of Aurora** tonight or tomorrow (10 November) early morning. **Due to its proximity, a direct hit (i.e., eyewall affecting the area without making landfall) over Calaguas and Polillo Islands is possible.**
- After landfall, UWAN will traverse the mountainous terrain of Northern Luzon and emerge over Lingayen Gulf or the coastal waters of Pangasinan or La Union tomorrow morning. The interaction with the terrain will cause UWAN to weaken significantly, but it is expected to remain as typhoon throughout its passage over Northern Luzon.
- UWAN will begin to turn northwestward to northward from tomorrow to Tuesday (11 November) while remaining at typhoon category. On Wednesday (12 November), UWAN will turn northeastward towards the Taiwan Strait while weakening. It is forecast to make landfall over western Taiwan on Thursday (13 November), then rapidly weaken over the Taiwan landmass before emerging over the waters near Ryukyu Islands as a remnant low or weak tropical depression.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.

DOST-PAGASA
