

TROPICAL CYCLONE BULLETIN NR. 18

Typhoon UWAN (FUNG-WONG)

Issued at 11:00 AM, 10 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

“UWAN” FURTHER WEAKENS OVER THE WEST PHILIPPINE SEA.

Location of Center (10:00 AM)

The center of Typhoon UWAN was estimated based on all available data at **135 km West Northwest of Bacnotan, La Union (17.1°N, 119.2°E)**

Intensity

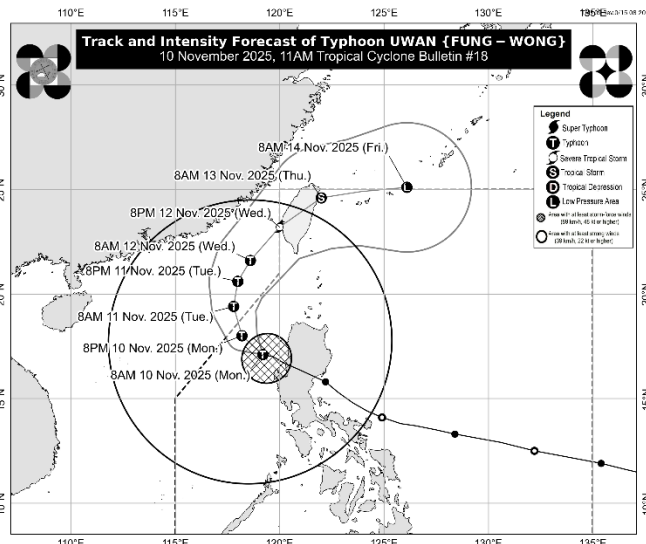

Maximum sustained winds of **130 km/h** near the center, gustiness of up to **160 km/h**, and central pressure of **970 hPa**

Present Movement

West northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **850 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 PM 10 November 2025	18.0	118.2	240 km West of Sinait, Ilocos Sur	140	TY	NW 10
24-Hour Forecast 8:00 AM 11 November 2025	19.4	117.8	385 km West of Calayan, Cagayan (OUTSIDE PAR)	150	TY	NNW 15
36-Hour Forecast 8:00 PM 11 November 2025	20.6	118.0	400 km West of Itbayat, Batanes (OUTSIDE PAR)	150	TY	N 10
48-Hour Forecast 8:00 AM 12 November 2025	21.6	118.6	350 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	130	TY	NNE 10

TROPICAL CYCLONE BULLETIN NR. 18

Typhoon UWAN (FUNG-WONG)

Issued at 11:00 AM, 10 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
3 Wind threat: Storm-force winds	Ilocos Sur, the northern and central portions of La Union (Luna, Caba, Santol, Bauang, City of San Fernando, San Juan, Bagulin, Aringay, Bangar, San Gabriel, Burgos, Naguilian, Ago, Bacnotan, Sudipen, Balaoan), and the northwestern portion of Pangasinan (Bolinao, Bani, Agno, City of Alaminos, Anda)	-	-
	Warning lead time: 18 hours Range of wind speeds: 89 to 117 km/h (Beaufort 10 to 11) Potential impacts of winds: Moderate to significant threat to life and property		
2 Wind threat: Gale-force winds	Batanes, Cagayan including Babuyan Islands, Isabela, Quirino, Nueva Vizcaya, Apayao, Abra, Kalinga, Mountain Province, Ifugao, Benguet, Ilocos Norte, the rest of La Union, the rest of Pangasinan, Aurora, Zambales, Bataan, Nueva Ecija, Tarlac, Pampanga, and Bulacan	-	-
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property		
1 Wind threat: Strong winds	Metro Manila, Cavite, Laguna, Batangas, Rizal, Quezon including Polillo Islands, Oriental Mindoro, Occidental Mindoro including Lubang Island, Marinduque, Romblon, the northern portion of Palawan (Taytay, Dumarang, El Nido, Araceli), including Calamian and Cuyo Islands, Camarines Norte, Camarines Sur, Catanduanes, Albay, Sorsogon, and the northern and western portions of Masbate (City of Masbate, Mobo, Aroroy, Balud, Mandaon, Milagros, Baleno) including Burias and Ticao Islands	Aklan, Capiz, and the northern and central portions of Antique (Pandan, Libertad, Sebaste, Culasi, Tibiao, Barbaza, Bugasong, Laua-An) including Caluya Islands	-
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property		

TROPICAL CYCLONE BULLETIN NR. 18

Typhoon UWAN (FUNG-WONG)

Issued at 11:00 AM, 10 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 14 issued at 11:00 AM today for the heavy rainfall outlook due to TC UWAN.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Moderate to significant impacts** from storm-force winds are possible within any of the areas under Wind Signal No. 3.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, **outside the areas under Wind Signals**, UWAN will also bring **occasionally gusty conditions** reaching strong to gale-force strength over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (10 November):** Palawan, Visayas, Zamboanga Peninsula, Northern Mindanao, Dinagat Islands, SOCCSKSARGEN, Davao Occidental, and Davao Oriental.
- **Tomorrow (11 November):** Most of Luzon, Iloilo, and Guimaras.
- **Wednesday (12 November):** Batanes, Babuyan Islands, Ilocos Norte, and Ilocos Sur.

Coastal Flooding

There is a **high risk of life-threatening and damaging storm surge** with peak heights **exceeding 3.0 m** within the next 12 hours over the low-lying or exposed coastal communities of Ilocos Region, Cagayan Valley, Central Luzon, Metro Manila, CALABARZON, most of MIMAROPA, Aklan, and Antique. **Refer to Storm Surge Warning No. 11 issued at 8:00 AM today for more details.**

TROPICAL CYCLONE BULLETIN NR. 18

Typhoon UWAN (FUNG-WONG)

Issued at 11:00 AM, 10 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboards of northern and central Luzon and the western seaboards of Southern Luzon. For more details, refer to Gale Warning No. 10A issued at 11:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough or high seas over the following coastal waters:

- **Up to 8.0 m:** The seaboards of Ilocos Region; the western seaboard of Zambales.
- **Up to 7.0 m:** The seaboards of Batanes, Cagayan, and Isabela
- **Up to 5.5 m:** The seaboard of Aurora and Lubang Islands; the western seaboard of Bataan and Batangas.
- **Up to 4.5 m:** The western seaboard of Occidental Mindoro; the northern and western seaboards of Calamian Islands
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Camarines Norte; the northern seaboard of Camarines Sur; the northern and eastern seaboards of Catanduanes and Polillo Islands, the western seaboard of northern mainland Palawan.
- **Up to 3.5 m:** The seaboard of northern mainland Quezon, Marinduque, and Kalayaan Islands; the eastern seaboard of Oriental Mindoro; the northern and western seaboard of Romblon; the southern seaboard of mainland Quezon.
- **Up to 3.0 m:** The seaboard of Metro Manila, Cavite, Bulacan, Pampanga; the northern seaboards of Occidental Mindoro and Oriental Mindoro; the eastern seaboards of Albay and Sorsogon; the northern and eastern seaboards of Northern Samar; the western seaboards of central and southern mainland Palawan and Balabac Islands; the remaining seaboard of Bataan and Batangas.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Caluya Islands, Cuyo Islands, Cagayancillo Islands, Antique, Surigao del Sur, and Zamboanga del Norte; the western seaboard of Aklan, Guimaras, and Negros Occidental; the southern seaboard of Iloilo; the western and southern seaboards of Negros Oriental; the eastern seaboards of Eastern Samar, Dinagat Islands, and Davao Oriental; the northern and eastern seaboards of Siargao and Bucas Grande Islands; the remaining seaboards of CALABARZON, Bicol Region, Occidental Mindoro, Oriental Mindoro.
- **Up to 2.0 m:** The seaboards of Siquijor, Northern Mindanao, Davao Occidental, and Camiguin; the southern seaboard of Bohol, the remaining seaboards of MIMAROPA.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TROPICAL CYCLONE BULLETIN NR. 18

Typhoon UWAN (FUNG-WONG)

Issued at 11:00 AM, 10 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

Do not focus on the center track as it may still shift within the limit of the forecast confidence cone. Heavy rainfall, severe winds, and storm surge may still be experienced far from the landfall point or center track, and even in areas outside the forecast confidence cone. **Always refer to the latest hazard warnings currently in effect (e.g., Wind Signals, Heavy Rainfall Warnings, Storm Surge Warnings) and the information under “Other Hazards affecting Land Areas” of this bulletin for more details.**

- On the track forecast, UWAN will follow a recurving path and turn more northwestward today, northward tomorrow (11 November), and northeastward for the rest of the forecast period. A brief period of re-intensification may take place today and tomorrow while UWAN moves over the waters southwest of Taiwan, before eventually weakening from Wednesday (12 November) onwards.
- UWAN is forecast to exit PAR tonight or tomorrow early morning. It may re-enter PAR on Wednesday evening as it makes landfall over the southwestern coast of Taiwan, resulting in further weakening. It will then emerge over the waters near Ryukyu Islands on Thursday (13 November), where it is expected to eventually weaken into a remnant low on Friday (14 November).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
