

TROPICAL CYCLONE BULLETIN NR. 21

Typhoon UWAN (FUNG-WONG)

Issued at 5:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

“UWAN” MAINTAINS ITS STRENGTH AS IT MOVES NORTHWARD OUTSIDE THE PHILIPPINE AREA OF RESPONSIBILITY.

Location of Center (4:00 AM)

The center of Typhoon UWAN was estimated based on all available data at **365 km West of Calayan, Cagayan (OUTSIDE PAR) (19.5°N, 118.0°E)**.

Intensity

Maximum sustained winds of **120 km/h** near the center, gustiness of up to **150 km/h**, and central pressure of **975 hPa**

Present Movement

Northward at 15 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **750 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 2:00 PM 11 November 2025	20.3	118.2	395 km West of Basco, Batanes (OUTSIDE PAR)	110	STS	N 10
24-Hour Forecast 2:00 AM 12 November 2025	21.2	118.5	350 km West of Itbayat, Batanes (OUTSIDE PAR)	100	STS	NNE 10
36-Hour Forecast 2:00 PM 12 November 2025	22.3	119.4	305 km Northwest of Itbayat, Batanes (OUTSIDE PAR)	95	STS	NE 15
48-Hour Forecast 2:00 AM 13 November 2025	23.9	121.3	350 km North of Itbayat, Batanes or in the vicinity of Hualien County, Taiwan	75	TS	NE 20
60-Hour Forecast 2:00 PM 13 November 2025	24.6	122.8	435 km North Northeast of Itbayat, Batanes	55	TD	ENE 15
72-Hour Forecast 2:00 AM 14 November 2025	25.0	125.1	575 km Northeast of Itbayat, Batanes	-	LOW	E 20

TROPICAL CYCLONE BULLETIN NR. 21

Typhoon UWAN (FUNG-WONG)

Issued at 5:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
2 Wind threat: Gale-force winds	Batanes, Cagayan including Babuyan Islands, Apayao, Abra, Kalinga, the western portion of Mountain Province (Besao, Tadian, Sagada, Bauko, Sadanga, Bontoc, Sabangan, Barlig), the northwestern portion of Benguet (Mankayan, Kapangan, Kibungan, Bakun), Ilocos Norte, Ilocos Sur, and the northern portion of La Union (Luna, Santol, City of San Fernando, San Juan, Bagulin, Bangar, San Gabriel, Bacnotan, Sudipen, Balaoan)	-	-
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property		
1 Wind threat: Strong winds	Isabela, Quirino, Nueva Vizcaya, the rest of Benguet, the rest of Mountain Province, the rest of La Union, Pangasinan, Aurora, Nueva Ecija, Zambales, Bataan, Tarlac, Pampanga, Bulacan, Metro Manila, Cavite, Laguna, the northern and western portions of Batangas (Tuy, Nasugbu, Lian, Calatagan, Balayan, Calaca, Laurel, Talisay, Lemery, Agoncillo, San Nicolas, City of Tanauan, Santo Tomas), Rizal, the northern portion of Quezon (General Nakar, Infanta, Real) including Polillo Islands, and Lubang Islands	-	-
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property		

TROPICAL CYCLONE BULLETIN NR. 21

Typhoon UWAN (FUNG-WONG)

Issued at 5:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 17 issued at 5:00 AM today for the heavy rainfall outlook due to TC UWAN.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, **outside the areas under Wind Signals**, UWAN will also bring **occasionally gusty conditions** reaching strong to gale-force strength over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Most of Luzon, Western Visayas, Negros Island Region, and Northern Samar.
- **Tomorrow (12 November):** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Bicol Region, Zambales, Bataan, Cavite, Quezon, and Aurora.
- **Thursday (13 November):** Batanes and Babuyan Islands.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboard of Northern Luzon and the western seaboard of Central Luzon and Southern Luzon. For more details, refer to Gale Warning No. 12 issued at 5:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough or high seas over the following coastal waters:

- **Up to 8.0 m:** The seaboard of Ilocos Region.
- **Up to 6.0 m:** The seaboard of Zambales, Batanes, and Babuyan Islands.
- **Up to 5.5 m:** The seaboard of mainland Cagayan; the western seaboard of Bataan.
- **Up to 4.5 m:** The seaboard of Isabela and Lubang Islands; the western seaboard of Batangas.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The seaboard of Aurora; the northern and western seaboard of Occidental Mindoro and Palawan including Calamian Islands.
- **Up to 3.0 m:** The northern seaboard of Polillo Islands; the remaining seaboard of Bataan; the seaboard of Cavite, Batangas, Metro Manila, Pampanga, and Bulacan.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboard of Polillo Islands; the northern seaboard of Camarines Norte, Camarines Sur, and Northern Samar; the seaboard of Catanduanes; the eastern seaboard of Albay and Sorsogon.
- **Up to 2.0 m:** The remaining seaboard of Quezon and Northern Samar; the eastern seaboard of Eastern Samar, Caraga, and Davao Region; the southern seaboard of Oriental Mindoro and Marinduque; and the western and northern seaboard of Romblon.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TROPICAL CYCLONE BULLETIN NR. 21

Typhoon UWAN (FUNG-WONG)

Issued at 5:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

TRACK AND INTENSITY OUTLOOK

Do not focus on the center track as it may still shift within the limit of the forecast confidence cone. Heavy rainfall, severe winds, and storm surge may still be experienced far from the landfall point or center track, and even in areas outside the forecast confidence cone. **Always refer to the latest hazard warnings currently in effect (e.g., Wind Signals, Heavy Rainfall Warnings, Storm Surge Warnings) and the information under “Other Hazards affecting Land Areas” of this bulletin for more details.**

- UWAN is now outside the Philippine Area of Responsibility and will follow a recurving path turning northward then northeastward for most of the forecast period. Due to unfavorable environmental conditions, UWAN is forecast to continue weakening into a severe tropical storm prior to its landfall over western Taiwan.
- It may re-enter PAR tomorrow (12 November) evening as it makes landfall over the southwestern coast of Taiwan, resulting in further weakening. It will then emerge over the waters near Ryukyu Islands on Thursday (13 November), where it is expected to eventually weaken into a remnant low on Friday (14 November).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.

DOST-PAGASA
