

TROPICAL CYCLONE BULLETIN NR. 22
Severe Tropical Storm UWAN (FUNG-WONG)

Issued at 11:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

“UWAN” WEAKENS INTO A SEVERE TROPICAL STORM WHILE OUTSIDE THE PHILIPPINE AREA OF RESPONSIBILITY.						
Location of Center (10:00 AM)						
The center of Severe Tropical Storm UWAN was estimated based on all available data at 370 km West Northwest of Calayan, Cagayan (OUTSIDE PAR) (19.9°N, 118.0°E).						
Intensity						
Maximum sustained winds of 110 km/h near the center, gustiness of up to 135 km/h , and central pressure of 980 hPa						
Present Movement						
North northwestward at 10 km/h						
Extent of Tropical Cyclone Winds						
Strong to storm-force winds extend outwards up to 550 km from the center						
TRACK AND INTENSITY FORECAST

TROPICAL CYCLONE BULLETIN NR. 22
Severe Tropical Storm UWAN (FUNG-WONG)

Issued at 11:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 18 issued at 11:00 AM today for the heavy rainfall outlook due to TC UWAN.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, **outside the areas under Wind Signals**, UWAN will also bring **occasionally gusty conditions** reaching strong to gale-force strength over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Most of Luzon, Western Visayas, Negros Island Region, and Northern Samar.
- **Tomorrow (12 November):** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Bicol Region, Zambales, Bataan, Cavite, Quezon, and Aurora.
- **Thursday (13 November):** Batanes and Babuyan Islands.

TROPICAL CYCLONE BULLETIN NR. 22
Severe Tropical Storm UWAN (FUNG-WONG)

Issued at 11:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboards of Northern Luzon and the western seaboards of Central Luzon and Southern Luzon. For more details, refer to Gale Warning No. 12 issued at 5:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough or high seas over the following coastal waters:

- **Up to 8.0 m:** The seaboards of Ilocos Norte and Ilocos Sur; the northwestern seaboard of Pangasinan.
- **Up to 6.0 m:** The seaboards of Batanes, northern La Union, and northern Zambales; the western seaboards of Babuyan Islands and Pangasinan.
- **Up to 5.0 m:** The remaining seaboards of Babuyan Islands, La Union, Pangasinan, and Zambales.
- **Up to 4.5 m:** The northern seaboard of mainland Cagayan; the western seaboards of Bataan and Lubang Island; the remaining seaboard of mainland Cagayan.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboards of northern Isabela and Kalayaan Islands; the western seaboard of Cavite, Batangas, Calamian Islands, and northern Occidental Mindoro; the remaining seaboard of Lubang Island.
- **Up to 3.0 m:** The seaboard of Northern Aurora; the western seaboards of Occidental Mindoro and Palawan; the remaining seaboard of Isabela.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The northern and eastern seaboards of Polillo Islands and Catanduanes; the northern seaboards of Camarines Norte and Camarines Sur; the eastern seaboards of Albay and Sorsogon.
- **Up to 2.0 m:** The seaboards of Marinduque, Oriental Mindoro, Romblon, Masbate including Burias and Ticao Islands, Antique including Caluya Islands, and Surigao del Sur; the remaining seaboards of Aurora, Batangas, Quezon, Occidental Mindoro, Palawan, Camarines Norte, Camarines Sur, Catanduanes, Albay, and Sorsogon; the northern and eastern seaboards of Northern Samar; the eastern seaboards of Eastern Samar, Dinagat Islands, Siargao and Bucas Grande Islands, Davao Oriental, and Davao Occidental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**
-
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TROPICAL CYCLONE BULLETIN NR. 22
Severe Tropical Storm UWAN (FUNG-WONG)

Issued at 11:00 AM, 11 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- UWAN is still outside the Philippine Area of Responsibility and will follow a recurving path turning northward today, then northeastward from tonight until Thursday (13 November) morning, then eastward for rest of the forecast period. Due to unfavorable environmental conditions, UWAN is forecast to continue weakening throughout the rest of the forecast period.
- It may re-enter PAR tomorrow (12 November) evening as it makes landfall over the southwestern coast of Taiwan. It will then emerge over the waters near Ryukyu Islands on Thursday, where it is expected to eventually weaken into a remnant low on Friday (14 November).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
