

TROPICAL CYCLONE BULLETIN NR. 28
Tropical Depression UWAN (FUNG-WONG)

Issued at 11:00 PM, 12 November 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

“UWAN” WEAKENS INTO A TROPICAL DEPRESSION WHILE OVER THE SEA EAST OF SOUTHERN TAIWAN.

Location of Center (10:00 PM)

The center of Tropical Depression UWAN was estimated based on all available data at **190 km North Northwest of Itbayat, Batanes (22.4°N, 121.2°E).**

Intensity

Maximum sustained winds of **55 km/h** near the center, gustiness of up to **90 km/h**, and central pressure of **1000 hPa**

Present Movement

East northeastward at 20 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **300 km** from the center

12-Hour Forecast 8:00 AM 13 November 2025	24.4	123.1	425 km North Northeast of Itbayat, Batanes	-	LOW	NE 30

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

TCWS No.	Luzon	Visayas	Mindanao
1 Wind threat: Strong winds	Batanes Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property	-	-

TROPICAL CYCLONE BULLETIN NR. 28
Tropical Depression UWAN (FUNG-WONG)

Issued at 11:00 PM, 12 November 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, **outside the areas under Wind Signals**, UWAN will also bring **occasionally gusty conditions** reaching strong to gale-force strength over the following areas (especially in coastal and upland areas exposed to winds):

- **Today and tomorrow (13 November):** Batanes and Babuyan Islands

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The northern and western seaboard of Batanes; the northern seaboard of Babuyan Islands
- **Up to 3.5 m:** The seaboard of Ilocos Norte and Ilocos Sur; the western seaboard of Pangasinan; the remaining seaboard of Batanes
- **Up to 3.0 m:** The seaboard of La Union and Zambales; the western seaboard of northern Occidental Mindoro including Lubang Island; the remaining seaboard of Babuyan Islands and Pangasinan.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Kalayaan Islands; the northern and western seaboard of Palawan including Calamian Islands; the northern seaboard of mainland Cagayan.
- **Up to 2.0 m:** The seaboard of Isabela and northern Aurora; the northern and eastern seaboard of Catanduanes; the northern seaboard of Occidental Mindoro; the remaining western seaboard of Occidental Mindoro.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

UWAN traversed the southern portion of Taiwan and is forecast to move generally northeastward towards the southern Ryukyu Islands. Due to unfavorable conditions, it will continue to weaken until it becomes a remnant low in the next 12 hours.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
