

TROPICAL CYCLONE BULLETIN NR. 17

Tropical Storm VERBENA (KOTO)

Issued at 5:00 AM, 26 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

“VERBENA” INTENSIFIES FURTHER AS IT MOVES WEST NORTHWESTWARD OVER THE PHILIPPINE SEA

Location of Center (4:00 AM)

The center of Tropical Storm VERBENA was estimated based on all available data **at 130 km West of Coron, Palawan (11.9°N, 119.0°E).**

Intensity

Maximum sustained winds of **85 km/h** near the center, gustiness of up to **105 km/h**, and central pressure of **992 hPa**.

Present Movement

West northwestward at 25 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **300 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.

TROPICAL CYCLONE BULLETIN NR. 17

Tropical Storm VERBENA (KOTO)

Issued at 5:00 AM, 26 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
2 Wind threat: Gale-force winds	Calamian Islands and extreme northern portion of mainland Palawan (El Nido, Taytay)	-	-
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property		
1 Wind threat: Strong winds	Occidental Mindoro and the northern and central portions of Palawan (Dumaran, Roxas, San Vicente, Puerto Princesa City) including Cuyo and Kalayaan Islands	-	-
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property		

OTHER HAZARDS AFFECTING LAND AREAS
<u>Heavy Rainfall Outlook</u> Refer to Weather Advisory No. 25 issued at 5:00 AM today for the heavy rainfall outlook due to Shear Line and VERBENA. <u>Severe Winds</u> The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction. • Minor to moderate impacts from strong winds are possible within any of the areas under Wind Signal No. 2. • Minimal to minor impacts from strong winds are possible within any of the areas under Wind Signal No. 1. Furthermore, the surge of Northeast Monsoon and VERBENA will also bring gusty conditions reaching strong to gale-force strength over the following areas not under Wind Signal (especially in coastal and upland areas exposed to winds): • Today: Most of Luzon, Aklan, Antique, Capiz, and Negros Occidental. • Tomorrow (27 November): Batanes, Cagayan, Isabela, Cordillera Administrative Region, Ilocos Region, Zambales, Bataan, Metro Manila, Cavite, Occidental Mindoro, and Palawan.

TROPICAL CYCLONE BULLETIN NR. 17

Tropical Storm VERBENA (KOTO)

Issued at 5:00 AM, 26 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboard of Northern Luzon and the western seaboard of Southern Luzon. Refer to Gale Warning No. 9 issued at 5:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 6.0 m:** The seaboard of Batanes, Babuyan Islands, Ilocos Norte, and Ilocos Sur.
- **Up to 5.0 m:** The seaboard of Kalayaan Islands; the northern seaboard of mainland Cagayan
- **Up to 4.5 m:** The remaining seaboard of Ilocos Region and mainland Cagayan; the western seaboard of northern mainland Palawan and Calamian Islands.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Isabela.
- **Up to 3.0 m:** The seaboard of Zambales and Aurora; the western seaboard of Bataan, Occidental Mindoro including Lubang Islands; the northern and eastern seaboard of Polillo Islands; the northern seaboard of Camarines Norte.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The northern seaboard of Camarines Sur; the northern and eastern seaboard of Catanduanes and Northern Samar; the eastern seaboard of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Surigao del Sur; the remaining western seaboard of mainland Palawan; the western seaboard of Cavite.
- **Up to 2.0 m:** The seaboard of Batangas; the remaining seaboard of Occidental Mindoro and Palawan including Cuyo and Cagayancillo Islands; the southern seaboard of Oriental Mindoro; the eastern seaboard of Davao Oriental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- On the forecast track, VERBENA will continue moving west northwestward over the West Philippine Sea this morning before moving westward and passing north of Kalayaan Islands this afternoon and evening. It will then exit the Philippine Area of Responsibility tomorrow (27 November) morning, and turn west southwestward from tomorrow until Friday (28 November) morning. Afterwards, VERBENA will begin moving northwestward, then north northwestward over the sea east of Vietnam for the remainder of the forecast period.
- VERBENA may reach severe tropical storm category this afternoon and will continue to intensify until tomorrow due to favorable environment. Afterwards, a weakening trend may occur due to the effect of the surge of the Northeast Monsoon.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
